ICANotes
Behavioral Health EHR

Better Notes. Less Typing.

The Most Clinically Robust Behavioral Health EHR

✓ **Clinically logical workflow reduces documentation time & streamlines scheduling & billing**

✓ **Paperless practice management**

✓ **Phenomenal customer support**

✓ **HIPAA compliant & ONC-Certified EHR software**

About ICANotes

Designed by a psychiatrist, ICANotes is the most clinically robust EHR software for behavioral health professionals. With our integrated charting, scheduling, telehealth, and electronic billing, you will find ICANotes intuitive, clinically useful, time saving, revenue-enhancing, and affordable.
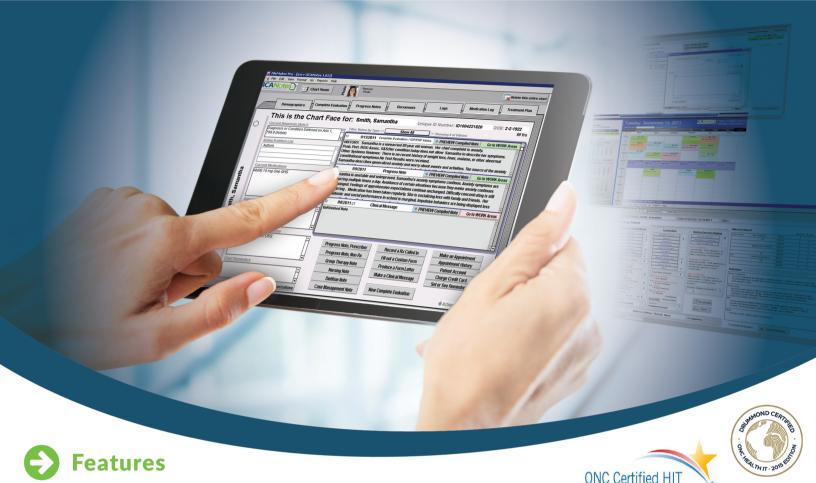

ICANotes tracks your content and automatically determines the highest billable coding level supported by your note, so you can confidently bill at the maximum level of reimbursement. ICANotes is also HIPAA-compliant and as a 2015 edition ONC-certified HIT meets the requirements of the Promoting Interoperability Programs administered by the Centers for Medicare and Medicaid Services. ICANotes is fully configured out of the box for compliance with CARF, Joint Commission, Medicare, and Medicaid requirements.

ICANotes is designed to work the way you think, and can be further customized by you to meet your clinical and documentation needs. Using pre-formatted content buttons arranged in clinically logical ways, you can quickly create detailed and individualized narrative notes and reports with minimal typing required. This customizable point-and-click functionality will reduce the time you spend documenting patient care, eliminate transcription expenses, and help protect you from medical-legal liability.

ICANotes is web-based, meaning that you can be up and running with a secure EHR solution in minutes without changing your existing processes and without a large capital investment. You can access and work on your patient records at any time from any computer or mobile device with a reliable internet connection.

At ICANotes, our mission is to develop and deliver behavioral health software that empowers clinicians to create higher quality records and to provide better patient care.

We provide unlimited support and one-on-one training at no additional charge. ICANotes has everything you need, and our friendly, proactive support team will help you every step of the way. For mental health professionals, ICANotes is the best way to get started with electronic health records. You will be able to see more patients each day and reduce the cost of managing your practice.

Please visit our website, www.ICANotes.com, to take a FREE TRIAL of our software, watch our online video tutorials, or request a LIVE DEMO at your convenience.

→ Features

Charting

Assessments, treatment plans, progress notes, group therapy notes, case management notes, discharge summaries, and other clinical notes are created quickly using templated and customizable buttons specific to behavioral health. All records are encrypted and backed up by us, and saved in PDF format for easy printing or faxing.

ePrescribing

Electronically send an accurate, error-free and understandable prescription directly to a pharmacy from the point of care.

Telehealth

Launch a secure HIPAA-compliant video session directly from the appointment or chart.

Patient Portal

Online patient registration and electronic forms completion as well as secure electronic communication with patients.

Billing

Claims are automatically generated by the notes for electronic submission via an integrated clearinghouse. ICANotes also supports auto-posting of remittances.

Document Management

Easily import and attach scanned paper files to a patient chart, or add our clinical document exchange platform to send documents electronically via direct messaging.

Secure Messaging

ICANotes features a fully HIPAA-compliant secure messaging system to for intraoffice communication.

Calendar

Drag and drop scheduling with color coding, customizable appointment types, and check-in notification. Easily switch between monthly, weekly, and daily views. Supports practices with multiple clinicians and multiple locations.

" Here is what clinicians using ICANotes have to say:

"When EHRs were first mandated by CMS, my productivity plummeted with the EHR system my organization was using at that time. Even years into using that system, productivity was awful. With ICANotes, I have not only returned to pre-EHR productivity levels, but have surpassed them and now see more patients each day, complete all required documentation, and more effectively capture and bill for services."

"I have found it very easy to use and learn very quickly. I was able to complete almost all my notes during visits with patients by the second day of use. It was actually easier than handwriting notes. I wish I had done this years ago."

"ICANotes creates a narrative note that is readable and thorough. I get lots of compliments on my documentation and I feel more confident in my coding. Customer service is excellent."
